Safety is important feature:

- ♦ Sites selected by librarians, educators, editors
- ♦ Sites are reviewed, fully annotated, professionally cataloged, updated bi-monthly, contain minimal advertising
- ♦ Site sources identified
- ♦ Site author/source expertise & reputation considered
- ♦ Links monitored for functionality. No broken links.
- ♦ Objective, unbiased sites
- ♦ Preference for .gov, .edu, and .org sites
- Search results manageable, as only the best sites are chosen. ("Civil War" search yields 150-180 results, depending on search type, rather than the thousands found in Google.)
